CONTENTS OF VOLUME XXXII

NO. 1. JANUARY 1969

Visual receptive fields in the superior colliculus of the cat. STERLING, P. AND B. G. WICKELGREN. 1

Influence of visual cortex on receptive fields in the superior colliculus of the cat. WICKELGREN, B. G. AND P. STERLING. 16

Sensitivity of isolated frog muscle spindle during and after stretching. OTTOSON, D., J. S. MCREYNOLDS, AND G. M. SHEPHERD. 24

Conductance changes during pyramidally induced postsynaptic potentials in red nucleus neurons. TSUKAHARA, N. AND D. R. G. FULLER. 35

Slow inhibitory and excitatory postsynaptic responses in single cells of mammalian sympathetic ganglia. LIBET, B. AND T. TOSAKA. 43

Quantitative stimulation of frog olfactory receptors. O'CONNELL, R. J. AND M. M. MOZELL 51

Comparative study of acetylcholine and 5-hydroxytryptamine receptors on single snail neurons. STEFANI, E. AND H. M. GERSCHENFELD. 64

Functional relationship among neurons of the cerebellar cortex in the absence of anesthesia. BLOEDEL, J. R. AND W. J. ROBERTS. 75

Mechanisms of inhibition in the ventromedial nucleus of the hypothalamus. MURPHY, J. T. AND L. P. RENAUD. 85

NO. 2. MARCH 1969

Patterns of motor cortex control of flexor and extensor cat fusimotor neurons. FIDONE, S. J. AND J. B. PRESTON. 103

Microelectrode study of residual neurons in the degenerated lateral geniculate nucleus of the cat. CHOW, K. L. AND D. F. LINDSLEY. 116

Visual evoked response of single cells and of the EEG in primary visual area of the cat. CREUTZFELDT, O., A. ROSINA, M. ITO, AND W. PROBST. 127

Effects of conditioning afferent volleys on variability of monosynaptic responses of extensor motoneurons. RUDOMIN, P. AND H. DUTTON. 140

Effects of muscle and cutaneous afferent nerve volleys on excitability fluctuations of Ia terminals. RUDOMIN, P. AND H. DUTTON. 158

Symmetry and connectivity in the map of the body surface in somatosensory area II of primates. WHITSEL, B. L., L. M. PETRUCELLI, AND G. WERNER. 170

Structure of cat frontal olfactory cortex. STEVENS, C. F. 184

Electrical activity in cat olfactory cortex produced by synchronous orthodromic volleys. BIEDENBACH, M. A. AND C. F. STEVENS. 193

Synaptic organization of cat olfactory cortex as revealed by intracellular recording. BIEDENBACH, M. A. AND C. F. STEVENS. 204

Reinnervation of carotid body and sinus with superior laryngeal nerve fibers. ZAPATA, P., A. HESS, AND C. EYZAGUIRRE. 215

Hyperpolarizing influence of trigeminal nucleus caudalis on primary afferent preterminals in trigeminal nucleus oralis. SCIBETTA, C. J. AND R. B. KING. 229

Observations on types of response to combinations of neck, vestibular, and muscle stretch signals. KIM, J. H. AND L. D. PARTRIDGE. 239

Responsiveness of thalamic and cortical motor relays during arousal and various stages of sleep. STERIADE, M., G. IOSIF, AND V. APOSTOL 251

NO. 3. MAY 1969

Single-cell activity in cat motor cortex. I. Modifications during classical conditioning procedures. O'BRIEN, J. H. AND S. S. FOX 267

Single-cell activity in cat motor cortex. II. Functional characteristics of the cell related to conditioning changes. O'BRIEN, J. H. AND S. S. FOX. 285

CONTENTS OF VOLUME XXXII

NO. 1. JANUARY 1969

Visual receptive fields in the superior colliculus of the cat. STERLING, P. AND B. G. WICKELGREN. 1

Influence of visual cortex on receptive fields in the superior colliculus of the cat. WICKELGREN, B. G. AND P. STERLING. 16

Sensitivity of isolated frog muscle spindle during and after stretching. OTTOSON, D., J. S. MCREYNOLDS, AND G. M. SHEPHERD. 24

Conductance changes during pyramidally induced postsynaptic potentials in red nucleus neurons. TSUKAHARA, N. AND D. R. G. FULLER. 35

Symmetry and connectivity in the map of the body surface in somatosensory area II of primates. WHITSEL, B. L., L. M. PETRUCELLI, AND G. WERNER. 170

Structure of cat frontal olfactory cortex. STEVENS, C. F. 184

Electrical activity in cat olfactory cortex produced by synchronous orthodromic volleys. BIEDENBACH, M. A. AND C. F. STEVENS. 193

Synaptic organization of cat olfactory cortex as revealed by intracellular recording. BIEDENBACH, M. A. AND C. F. STEVENS. 204

Reinnervation of carotid body and sinus with superior laryngeal nerve fibers. ZAPATA, P., A. HESS, AND C. EYZAGUIRRE. 215

Hyperpolarizing influence of trigeminal nucleus caudalis on primary afferent preterminals in trigeminal nucleus oralis. SCIBETTA, C. J. AND R. B. KING. 229

Observations on types of response to combinations of neck, vestibular, and muscle stretch signals. KIM, J. H. AND L. D. PARTRIDGE. 239

Responsiveness of thalamic and cortical motor relays during arousal and various stages of sleep. STERIADE, M., G. IOSIF, AND V. APOSTOL 251

NO. 3. MAY 1969

Single-cell activity in cat motor cortex. I. Modifications during classical conditioning procedures. O'BRIEN, J. H. AND S. S. FOX 267

Single-cell activity in cat motor cortex. II. Functional characteristics of the cell related to conditioning changes. O'BRIEN, J. H. AND S. S. FOX. 285

Lateral inhibition in a motor output system. I. Reciprocal inhibition in dipteran flight motor system. WYMAN, R. J. 297
Lateral inhibition in a motor output system. II. Diverse forms of patterning. WYMAN, R. J. 307
Organization of retina of the mudpuppy, *Necturus maculosus*. I. Synaptic structure. DOWLING, J. E. AND F. S. WERBLIN. 315
Organization of retina of the mudpuppy, *Necturus maculosus*. II. Intracellular recording. WERBLIN, F. S. AND J. E. DOWLING. 339
Discharge patterns of brain-stem respiratory neurons during Hering-Breuer reflex evoked by lung inflation. COHEN, M. I. 356
Activity of pyramidal tract neurons during postural fixation. EVARTS, E. V. 375
Time structure of discharges in single auditory nerve fibers of the squirrel monkey in response to complex periodic sounds. BRUGGE, J. F., D. J. ANDERSON, J. E. HIND, AND J. E. ROSE. 386
Some possible neural correlates of combination tones. ROSE, J. E., J. F. BRUGGE, D. J. ANDERSON, AND J. E. HIND. 402
Neurotransmission in central nervous tissue: a study of isolated rabbit retina. AMES, A. III AND D. A. POLLEN. 424
Time course of minimal corticomotoneuronal excitatory postsynaptic potentials in lumbar motoneurons of the monkey. PORTER, R. AND J. HORE. 443
Cortical neuronal mechanisms in flutter-vibration studied in unanesthetized monkeys. Neuronal periodicity and frequency discrimination. MOUNTCASTLE, V. B., W. H. TALBOT, H. SAKATA, AND J. HYVÄRINEN. 452

NO. 4. JULY 1969

Dynamic characteristics of response in a vestibulomotor reflex. PARTRIDGE, L. D. AND J. H. KIM. 485
Organization of inhibition in abdominal ganglion of *Aplysia*. I. Role of inhibition and disinhibition in transforming neural actvity. KANDEL, E. R., W. T. FRAZIER, AND H. WACHTEL. 496
Organization of inhibition in abdominal ganglion of *Aplysia*. II. Posttetanic potentiation, heterosynaptic depression, and increments in frequency of inhibitory postsynaptic potentials. WAZIRI, R., E. R. KANDEL, AND W. T. FRAZIER. 509
Organization of inhibition in abdominal ganglion of *Aplysia*. III. Interneurons mediating inhibition. WAZIRI, R. AND E. R. KANDEL. 520
Some quantitative aspects of pyramidal collateral inhibition. KAMEDA, K., R. NAGEL, AND V. B. BROOKS. 540
Color vision in the tree shrew after removal of posterior neocortex. SNYDER, M., H. KILLACKEY, AND I. T. DIAMOND. 554
Interrelation of caudate nucleus and thalamus in alteration of cortically induced movement. LILES, S. L. AND G. D. DAVIS. 564
Electrocortical effects of caudate stimulations which alter cortically induced movement. LILES, S. L. AND G. D. DAVIS. 574
Effects of eye movement, brain-stem stimulation, and alertness on transmission through lateral geniculate body of monkey. COHEN, B., M. FELDMAN, AND S. P. DIAMOND. 583
Pattern generation in a crustacean motoneuron. GILLARY, H. L. AND D. KENNEDY. 595
Neuromuscular effects of impulse pattern in a crustacean motoneuron. GILLARY, H. L. AND D. KENNEDY. 607
Response of binaural neurons of dog superior olivary complex to dichotic tonal stimuli: some physiological mechanisms of sound localization. GOLDBERG, J. M. AND P. B. BROWN. 613

NO. 5. SEPTEMBER 1969

Eye movements evoked by stimulation of frontal eye fields. ROBINSON, D. A. AND A. F. FUCHS. 637
Penicillin-induced interictal discharges from the cat hippocampus. I. Characteristics and topographical features. DICHTER, M. AND W. A. SPENCER. 649
Penicillin-induced interictal discharges from the cat hippocampus. II. Mechanisms underlying origin and restriction. DICHTER, M. AND W. A. SPENCER. 663

Neuronal behavior and triggering mechanism in cortical epileptic focus. MATSUMOTO, H., G. F. AYALA, AND R. J. GUMNIT. 688
Gross potential from facial nucleus of cat as an index of neural activity in response to glabella tap. WOODY, C. D. AND G. BROŽEK. 704
Changes in evoked responses from facial nucleus of cat with conditioning and extinction of an eye blink. WOODY, C. D. AND G. BROŽEK. 717
Visual receptive fields of striate cortex neurons in awake monkeys. WURTZ, R. H. 727
Comparison of effects of stimulation of Deiters' nucleus and medial longitudinal fasciculus on neck, forelimb, and hindlimb motoneurons. WILSON, V. J. AND M. YOSHIDA. .. 743
Changes in correlation between monosynaptic reflexes produced by conditioning afferent volleys. RUDOMIN, P., H. DUTTON, AND J. MUNOZ-MARTINEZ. 759
Visual receptive fields and responses to movement in an association area of cat cerebral cortex. DOW, B. M. AND R. DUBNER. 773
Neuromuscular facilitation with low-frequency stimulation and effects of some drugs. MAENO, T. AND C. EDWARDS. 785
Analysis of mobilization and demobilization processes in neuromuscular transmission in the frog. MAENO, T. 793
Announcements 801

NO. 6. NOVEMBER 1969

Responses of dorsal horn cells of *M. mulatta* to cutaneous and sural nerve A and C fiber stimuli. WAGMAN, I. H. AND D. D. PRICE. 803
Morphological organization of frog cerebellar cortex: a light and electron microscopic study. HILLMAN, D. E. 818
Functional characterization of neuronal circuitry of frog cerebellar cortex. LLINÁS, R., J. R. BLOEDEL, AND D. E. HILLMAN. 847
Neuronal interactions in frog cerebellum. BLOEDEL, J. R. AND R. LLINÁS. 871
Antidromic invasion of Purkinje cells in frog cerebellum. LLINÁS, R., J. R. BLOEDEL, AND W. ROBERTS. 881
Afferent inhibition at input to visual cortex of the cat. POGGIO, G. F., F. H. BAKER, Y. LAMARRE, AND E. R. SANSEVERINO. 892
Excitatory responses of geniculate neurons of the cat. BAKER, F. H., E. R. SANSEVERINO, Y. LAMARRE, AND G. F. POGGIO. 916
The crustacean axon. I. Metabolic properties: ATPase activity, calcium binding, and bioelectric correlations. PERKINS, M. S. AND E. B. WRIGHT. 930
Posttetanic potentiation of monosynaptic and disynaptic actions from supraspinal structures on lumbar motoneurons. SHAPOVALOV, A. I. 948
Responses of inferior colliculus neurons in the cat to binaural acoustic stimuli having wide-band spectra. GEISLER, C. D., W. S. RHODE, AND D. W. HAZELTON. 960
Responses of striate cortex neurons of the monkey to stimuli during rapid eye movements. WURTZ, R. H. 975
Comparison of effects of eye movements and stimulus movements on striate cortex neurons of the monkey. WURTZ, R. H. 987
Motor unit recruitment pattern and tonic activity in respiratory muscles of *Gallus domesticus*. FEDDE, M. R., P. D. DEWET, AND R. L. KITCHELL. 995
Sensitivity of single neurons in auditory cortex of cat to binaural tonal stimulation: effects of varying interaural time and intensity. BRUGGE, J. F., N. A. DUBROVSKY, L. M. AITKIN, AND D. J. ANDERSON. 1005
Response of cutaneous sensory units with unmyelinated fibers to noxious stimuli. BESSOU, P. AND E. R. PERL. 1025
Discharge properties of Purkinje cells recorded with single and double microelectrodes. BELL, C. C. AND R. J. GRIMM. 1044
Variability of cortical auditory evoked response. HORVATH, R. S. 1056

Announcements 1064

Indexes 1065

Subject Index to Volume XXXII*

Abdominal ganglia, 496, 509, 520
Ablations, 554
Acetylcholine, 64, 785
Acoustic nerve, 386, 402
Adaptation, 727
Adenosine diphosphate, 930
Afferent activity, 158, 892
Afferent systems, 847, 871
Alertness, 583
Aminobenzoic acid, 785
Amygdaloid body, 85
Anesthesia, 727, 1056
Anoxia, 215
Antidromic volleys, 881
Aplysia, 496, 509, 520
Apnea, 995
Arousal, 251
Asphyxia, 158, 215
Association cortex, 773
Atropine, 251
Auditory cortex, 1005, 1056
Auditory stimulation, 613, 1056

Basket cells, 75
Binaural interaction, 613, 960, 1005
Binding sites, 930
Binocular vision, 116
Blinking, 704, 717
Blocking, 64
Brain mapping, 637
Brain stem, 356, 583, 743, 948
